

Terasic Inc. - Product End of Life (EOL) Announcement

8/16/2022

Dear Valued Customer,

This letter is to inform you of our decision to discontinue an upcoming End Of Life (EOL) on DE0-CV. As customers' needs have gradually changed and critical components have become extremely challenging to obtain, supporting this product is relatively difficult now.

To continue providing innovative and cost effective products to our customers, we recommend customers transition to the alternative product, DE10-Lite. For more details, please refer to the Product Comparison table.

Item	Suggested Alternative	Discontinued Product
	DE10-Lite [P0466]	DE0-CV [P0192]

Purchases can still be made for DE0-CV during the Last Time Buy span. The supply of this product is limited, we urge customers to place orders at their earliest convenience.

We apologize for any inconvenience this may cause and we hope this announcement assists you in planning your future requirements.

If you have any questions regarding the EOL product and transitions, please do not hesitate to contact your Terasic sales representative or Terasic authorized distributors.

Sincerely,

Terasic Inc.
